

Clinical Neurophysiology Conference Standards

1-This conference is about learning and improving care. It is important to avoid personal comments not related to Neurology, Neuroscience, Neurosurgery, or Neurophysiology.

2-In as much as possible, it is important not to mention individual names or show images with names or other identifiable information.

3-No recordings are to be made of these conferences without the advanced expressed consent of the President of the Fresno Institute of Neuroscience.

4-Any specific information regarding patients, or hospitals or individual technologists or individual providers must remain confidential and cannot be released without the consent of the President of the Fresno Institute of Neuroscience. If required by credentialing bodies, a de-identified summary of the informational content of the conferences may be generated if approved by the President of the Fresno Institute of Neuroscience.
